BALLOT MEASURES
PUBLIC QUESTION #1

LEGISLATIVE CONSTITUTIONAL AMENDMENT

This constitutional amendment dedicates certain tax revenues for funding the construction and repair of the State transportation system. It provides that the revenues from the tax on the gross receipts of the sale of petroleum products would be dedicated for that funding. Also, beginning in the State fiscal year next commencing after approval of the amendment, certain amounts from the annual revenues from the State sales tax equal to approximately one-third of that revenue on the sale of new motor vehicles would also be so dedicated. The minimum amount dedicated from the petroleum products tax would be \$100,000,000 in the fiscal year in which this amendment is

approved and \$200,000,000 for each fiscal year thereafter. For the sales tax, the minimum amount would be \$80,000,000 for the fiscal year next commencing after this amendment is approved, \$140,000,000 for the succeeding fiscal year and \$200,000,000 for each fiscal year thereafter.

This amendment would add the revenues from the petroleum products tax and a portion of the sales tax to the revenues already constitutionally dedicated from 9.0 cents of the State tax on motor fuels as sources of funding for the construction and repair of the State transportation system.

This ballot measure passed.

PUBLIC QUESTION #2

LEGISLATIVE CONSTITUTIONAL AMENDMENT

This constitutional amendment would permit the Legislature to enact laws authorizing the disclosure to the general public of information pertaining to the identity, general and specific whereabouts, physical characteristics and criminal history of persons found to have committed a sex offense. This information would enable the public to take appropriate precautions to avoid or reduce the possibility of recidivist acts by such offenders. The amendment clarifies that the disclosure of this information as authorized by the Legislature would not be constrained by any other provision of the Constitution or any other right or interest in maintaining confidentiality. It further clarifies that the Legislature would be authorized to establish by law the scope, manner and format of any such disclosure.

This ballot measure passed.

LEGISLATION

P.L.2000, c.86 (A1436) – Allows certain disabled voters to receive absentee ballots automatically in certain circumstances.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

CHANGES

There were no changes made to the electoral or voting processes that affected this election.

Philip S. Rhudy	

LEGISLATION

P.L.2000, c.173 (S572) – Permits simulated voting for minors at polling place.

P.L.2001, c.15 (A1849) – Permits counties to increase the maximum daily compensation for members of election boards from \$100 to an amount not to exceed \$150.

P.L.2001, c.26 (S456) – Permits regional school boards to provide voters with information on the ballot as to the constituent municipality's share of district's budget.

P.L.2001, c.50 (A3339) – Changes petition filing deadline for 2001 primary election to the 47th day before election for certain candidates; appropriates funds for public notices and county reimbursements.

P.L.2001, c.73 (S2328) – Changes primary election date for 2001 from June 5 to June 26; increases expenditure and public financing limits for gubernatorial candidates for that primary election; provides public financing for certain primary gubernatorial; makes appropriation.

P.L.2001, c.98 (S249) – Requires certain notices of special school elections; requires such elections to be held on certain days.

EXTENUATING CIRCUMSTANCES

The date of the election was delayed because of disagreements in New Jersey's legislative and executive branches over the apportionment of legislative districts. Republicans argued that the new district map was in violation of the Voting Rights Act of 1965 because it weakened the electoral power of black voters in Essex County, while Democrats held that the new map did not violate the Act because it created new districts in which all non-white minorities comprised a majority. This dispute resulted in a delay of the primary election because it was brought to the U.S. Court of Appeals for a decision.

CHANGES

The date of the 2001 New Jersey primary election was moved from June 5 to June 26.

BALLOT MEASURES
PUBLIC QUESTION #1

INCREASE IN BONDING AUTHORITY FOR STATE'S OPEN SPACE, FARMLAND, AND HISTORIC PRESERVATION PROGRAMS

Shall the amendment to Article VIII, Section II, paragraph 7 of the Constitution of the State of New Jersey, agreed to by the Legislature, increasing, from an amount not to exceed \$1,000,000,000 to an amount not to exceed \$1,150,000,000, to aggregate principal amount of bonds, notes, or other obligations which may be issued by the Garden State Preservation Trust for open space, farmland, and historic preservation purposes and which are payable from the constitutional dedication through State fiscal year 2029 of up to \$ 98 million annually in State revenue from the State tax imposed under the "Sales and Use Tax Act," be approved?

Approval of this constitutional amendment would increase the cap on the total amount of bonds that may be issued by the Garden State Preservation Trust to raise revenue for open space, farmland, and historic preservation efforts in the State. The cap currently is \$1 billion, and this measure, if approved, would increase it by \$150 million, so that the new cap would be \$1.15 billion. The Constitution dedicates for State fiscal years 2000 through 2009 the sum of \$98 million annually, and for State fiscal years 2010 through 2029 the sum of up to \$98 million annually, in State sales and use tax revenue to finance open space, farmland, and historic preservation, including the payment of any debt that may be incurred from the issuance of bonds for those purposes. This measure would make available \$150 million more in bond funding for open space, farmland, and historic preservation but would not increase the amount of the constitutional dedication of up to \$98 million annually in State sales and use tax revenue to be used for such purposes.

This ballot measure passed.

PUBLIC QUESTION #2

CONSTITUTIONAL AMENDMENT TO EXPAND USES OF DEDICATED TAX REVENUE TO FUND HAZARDOUS DISCHARGE CLEANUPS

Shall the amendment to Article VIII, Section II, paragraph 6 of the Constitution of the State of New Jersey, expanding the authorized uses of the constitutionally dedicated Corporation Business Tax revenue, to include funding the costs of the remediation of hazardous discharges, and funding the costs of a State underground storage tank inspection program, be approved?

Approval of this constitutional amendment would expand the authorized uses of the constitutionally dedicated portion of the Corporation Business Tax revenues to allow funding, including the provision of loans or grants, for the costs of remediation of discharges of hazardous substances. Since 1996, 4% of the annual revenue from the Corporation Business Tax has been constitutionally dedicated, with a minimum of one-half allocated for hazardous discharge cleanup performed by the State, a minimum of one sixth or a minimum of \$5 million allocated for water quality projects and, until December 31, 2008, a minimum of one third allocated for funding loans or grants for underground storage tank upgrades, replacements, closures and remediations. This constitutional amendment would, without increasing taxes, expand the authorized uses of the one third dedicated to underground storage tank projects, to allow that portion to be used also for funding loans or grants to remediate hazardous substance discharges, and for the use of up to \$2 million per year for an underground storage tank inspection program, and, by removing the December 31, 2008 expiration date, would continue its allocation for those purposes.

This ballot measure passed.

PUBLIC QUESTION #3

DAM, LAKE, STREAM, FLOOD CONTROL, WATER RESOURCES, AND WASTEWATER TREATMENT BOND ISSUE

Shall the "Dam, Lake, Stream, Flood Control, Water Resources, and Wastewater Treatment Project Bond Act of 2003," which authorizes the State to issue bonds in the amount of \$200,000,000 for the purposes of providing financing for the restoration and repair of dams, the dredging and restoration of lakes, the cleaning and desnagging of streams to diminish flooding and property damage therefrom, and providing financing for flood control projects, water resources projects and wastewater treatment system projects, and providing the ways and means to pay the interest on the debt and also to pay and discharge the principal thereof, be approved? Approval of this act would authorize the sale of \$200,000,000 in State general obligation bonds to be used for the purposes of providing \$15,000,000 to restore and repair State-owned dams, \$95,000,000 in low-interest loans to owners of dams for dam restoration and repair projects, and \$15,000,000 in low-interest loans to owners of lakes and streams and private lake associations, with local governments as co-applicants, for lake dredging and restoration, or stream cleaning and desnagging projects, necessary to diminish severe flooding in the State; \$25,000,000 to finance State flood control projects, and \$50,000,000 for water resources projects and wastewater treatment system projects.

This ballot measure passed.

LEGISLATION

There was no legislation passed in the State of New Jersey between the 2003 primary election and the 2003 general election related to the electoral or voting processes.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

BALLOT MEASURES
PUBLIC QUESTION #1

Shall the amendment of Articles II, IV, V, and XI of the Constitution, agreed to by the Legislature, establishing the office of Lieutenant Governor, and providing for the term, election, succession, salary, qualifications, and duties of the office, and for an interim succession to be employed in the event of a vacancy in the office of the Governor before the election of the first Lieutenant Governor, be adopted?

Approval of this amendment would establish the office of Lieutenant Governor. Candidates for the offices of Governor and Lieutenant Governor would be elected as joint candidates in the general election. The Lieutenant Governor would serve as acting Governor during brief periods when the Governor is absent from the State or unable to serve and would become Governor in the event of a vacancy in the office of Governor. The Lieutenant Governor would perform other duties as assigned by the Governor or by law. The first Lieutenant Governor would be elected at

the general election held in 2009. In the event of a permanent vacancy in the office of the Governor occurring before the inauguration date of the first Lieutenant Governor, the President of the Senate, followed by the Speaker of the General Assembly, would become Governor, rather than acting Governor. A vacancy would be created in the Legislature if the Senate President or Assembly Speaker becomes Governor, to be filled in the manner currently provided by the Constitution.

This ballot measure passed.

PUBLIC QUESTION #2

Shall the amendment to Article VIII, Section II, paragraph 6 of the Constitution of the State of New Jersey, expanding the authorized uses of constitutionally dedicated Corporation Business Tax revenue: (1) to allow the use of 17% of the dedicated funds for 10 years, to pay for providing grants for the costs of air pollution control equipment to reduce particulate matter emissions from diesel-powered engines, funding for other measures to reduce human exposure to those emissions, and for no more than \$1,150,000 in associated State administrative costs, (2) to allow the use of no more than \$1,000,000 per year for State administrative expenses for the underground storage tank program, and (3) to allow an appropriation as the Legislature may provide up to \$10,000,000 from the preceding unexpended balances dedicated and appropriated for the underground storage tank program to provide grants for cost of air pollution control equipment to reduce particulate matter emissions from diesel-powered engines, and funding for other measures to reduce human exposure to those emissions, be approved?

Since 1996, 4% of the annual revenue from the Corporation Business Tax has been constitutionally dedicated to fund environmental programs. Approval of this constitutional amendment would: (1) expand the authorized uses of those revenues to provide grants for the costs of air pollution control equipment to reduce particulate matter emissions from diesel-powered engines, and funding for other measures to reduce human exposure to those emissions, and (2) change the allocation of funds for the existing authorized uses. The Constitution currently allocates one-half for hazardous discharge cleanup performed by the State, a minimum of one-sixth or a minimum of \$5,000,000 for water quality projects, and a minimum of one-third for funding loans or grants for underground storage tank upgrades, replacements, closures and remediations, loans or grants to remediate hazardous substance discharges, and for an underground inspection program. This constitutional amendment would reduce the allocation for hazardous discharge cleanup by the State to 33% for ten years, allocate 17% for that period for grants for air pollution control programs, and would allow up to \$1,150,000 per year of that 17% allocation to be used for the State's associated administrative costs. Also, this amendment would allow the use of no more than \$1,000,000 per year for State administrative expenses for the underground storage tank program, and would allow an appropriation by the Legislature of up to \$10,000,000 from the preceding unexpended balances dedicated and appropriated for the underground storage tank program to provide grants for cost of air pollution control equipment to reduce particulate matter emissions from diesel-powered engines, and funding for other measures to reduce human exposure to those emissions.

This ballot measure passed.

LEGISLATION

P.L.2005, c.136 (A30) – Provides for separate presidential primary on last Tuesday in February.

P.L.2005, c.137 (A33) – Requires that voting machines produce voter-verified paper record; provides that results of audit become official tally; provides for waiver if paper record not commercially available; provide for State funding for paper record.

P.L.2005, c.138 (A35) – Permits voting by absentee ballot for any reason; requires increased identification when requesting and returning absentee ballots; authorizes automatic transmission of absentee ballot application for general election.

P.L.2005, c.139 (A42) – Permits voter registration up to 21 days before election; permits use of provisional ballot for voter registration; modifies information available on voter registration list.

P.L.2005, c.145 (S28) – Implements provisions of federal “Help America Vote Act of 2002”; creates Statewide voter registration system.

P.L.2005, c.146 (S1387) – Promotes improved polling place accessibility for individuals with disabilities and the elderly.

P.L.2005, c.148 (S2389) – Permits elections in municipalities with fewer than 500 residents be conducted by mail.

P.L.2005, c.149 (A32) – Requires posting of a voter information notice called the voter’s bill of rights.

P.L.2005, c.150 (A34) – Sets time period for filing application for recount at 15 days following election.

P.L.2005, c.151 (A36) – Requires Attorney General and county boards of elections to produce certain elections training materials, and produce and display certain information pertinent to voters.

P.L.2005, c.152 (A37) – Requires county boards of elections to prepare reports concerning use of emergency and provisional ballots.

P.L.2005, c.153 (A38) – Permits voter to declare party affiliation on voter registration form.

P.L.2005, c.154 (A39) – Increases voting and voter penalties.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

CHANGES

There were several legislative changes made to the electoral and voting process prior to the 2005 general election, such as the creation of a separate primary for the presidential election, changing the voter registration deadline, and improving accessibility at polling places.

BALLOT MEASURES
PUBLIC QUESTION #1

Do you approve the amendment of Article VIII, Section I of the Constitution of the State of New Jersey, to provide for the annual dedication and annual appropriation of an amount equal to the annual revenue derived from a tax rate of 0.5% imposed under the New Jersey Sales and Use Tax, exclusively for the purpose of property tax reform, through a special Property Tax Reform Account established in the constitutionally dedicated Property Tax Relief Fund?

This constitutional amendment provides that an amount equal to the annual revenue derived from a tax rate of 0.5% imposed under the New Jersey Sales and Use Tax Act shall be annually dedicated in a special amount in the Property Tax Relief Fund and annually appropriated for property tax reform.

This ballot measure passed.

PUBLIC QUESTION #2

Shall the amendment to Article VIII, Section II, paragraph 6 of the Constitution of the State of New Jersey, expanding the authorized uses of the constitutionally dedicated Corporation Business Tax Revenue, to allow the use of 15% of the dedicated funds to fund the development of lands for recreation and conservation purposes, and beginning on January 1, 2016, allow the use of an additional 17% of the dedicated funds to fund the development of lands for recreation and conservation purposes, be approved?

Since 1996, 4% of the annual revenue from the Corporation Business Tax has been constitutionally dedicated to fund environmental programs. Approval of this constitutional amendment would (1) expand the authorized uses of those revenues to fund improvements and facilities for recreation and conservation purposes on preserved open space lands, and to pay debt that may be incurred from the issuance of bonds for those purposes, and (2) change the allocation of funds for the existing authorized uses. The Constitution currently allocates 33% for hazardous discharge cleanup performed by the State, 17% for grants for air pollution control programs until 2016, a minimum of one-sixth (or 16.66%) or a minimum of \$5 million for water quality projects, and a minimum of one-third for funding loans or grants for underground storage tank programs and loans or grants for hazardous discharge remediation programs, and for an underground storage tank inspection program. This constitutional amendment would authorize 15% of the dedicated funds to be used to finance improvements and facilities for recreation and conservation purposes on preserved open space lands and an additional 17% for that purpose in 2016 by reducing the allocation of monies for water quality programs, State funded hazardous discharge cleanup, and the underground storage tank program, but would require an appropriation to the underground storage tank program if less than \$20 million is available in any year for that program.

This ballot measure passed.

PUBLIC QUESTION #3

Do you approve the proposed amendment to the State Constitution, agreed to by the Legislature, which changes the current \$0.09 per gallon dedication of the motor fuels tax to \$0.105 per gallon to be used only for the funding of the State transportation system, subject to previously enacted laws dedicating any of these revenues for debt service on bonds of the State or for any other uses of these revenues?

This amendment to the State Constitution dedicates 10.5 cents per gallon of the existing motor fuels tax for the cost of funding the State transportation system. The current constitutional dedication is 9 cents per gallon of the motor fuels tax. The existing motor fuels tax is 10.5 cents per gallon for gasoline and 13.5 cents per gallon for diesel fuel. This amendment does not change the motor fuels tax rate.

This ballot measure passed.

LEGISLATION

There was no legislation passed in the State of New Jersey between the 2006 primary election and the 2006 general election related to the electoral or voting processes.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

CHANGES

There were no changes made to the electoral or voting processes that affected this election.

BALLOT MEASURES
PUBLIC QUESTION #1

DEDICATES ANNUAL REVENUE OF AN AMOUNT EQUAL TO A TAX RATE OF 1%
UNDER THE STATE SALES TAX FOR PROPERTY TAX REFORM

Do you approve the amendment of Article VIII, Section I of the Constitution of the State of New Jersey, to provide for the annual dedication and annual appropriation of an amount equal to the annual revenue derived from a tax rate of 1% imposed under the New Jersey Sales and Use Tax, exclusively for the purpose of property tax reform, through a special Property Tax Reform Account established in the constitutionally dedicated Property Tax Relief Fund?

This constitutional amendment provides that an amount equal to the annual revenue derived from a tax rate of 1% imposed under the New Jersey Sales and Use Tax Act shall be annually dedicated in a special account in the Property Tax Relief Fund and annually appropriated for property tax reform.

This ballot measure did not pass.

PUBLIC QUESTION #2

STEM CELL RESEARCH BOND ISSUE

Shall the “New Jersey Stem Cell Research Bond Act,” which authorizes the State to issue bonds in the amount of \$450 million for grants to fund “stem cell research projects,” as defined in the act, at institutions of higher education and other entities in the State conducting scientific and medical research, and providing the ways and means to pay the interest on the debt and also to pay and discharge the principal thereof, provided that recurring revenues of the State are certified by the State Treasurer to be available in an amount equal to the sum necessary to satisfy the annual debt service obligations related to such bonds, be approved?

Approval of this act would authorize the sale of \$450 million in State general obligation bonds to provide grants for stem cell, scientific, and medical research, as defined in the act, at institutions of higher education and other nonprofit and for profit entities in the State conducting scientific and medical research, provided that recurring revenues of the State are certified by the State Treasurer to be available in an amount equal to the sum necessary to satisfy the annual debt service obligations related to such bonds. Grants would be awarded by the Commission on Science and Technology, subject to evaluation by an independent research review panel composed of experts in stem cell and related research and by an independent ethics review panel.

If a grant recipient realizes a financial gain or benefit directly associated with the research funded by its grant, the act requires the recipient to make payments to the State in an amount representing a reasonable return on the State’s investment, as determined by the State Treasurer. The purpose of providing these funds is to promote research that could benefit State residents afflicted with diseases and severe injuries such as Alzheimer’s disease, cancer, diabetes, Lou Gehrig’s disease, Parkinson’s disease, sickle cell anemia and spinal cord injuries.

This ballot measure did not pass.

PUBLIC QUESTION #3

GREEN ACRES, FARMLAND, BLUE ACRES, AND HISTORIC PRESERVATION BOND ACT OF 2007

Shall the “Green Acres, Farmland, Blue Acres, and Historic Preservation Bond Act of 2007,” which authorizes the State to issue bonds in the amount of \$200 million to provide moneys for (1) the acquisition and development of lands for recreation and conservation purposes, (2) the preservation of farmland for agricultural or horticultural use and production, (3) the acquisition, for recreation and conservation purposes, of properties in the floodways of the Delaware River, Passaic River, and Raritan River, and their tributaries, that are prone to or have incurred flood or storm damage, and (4) funding historic preservation projects; and providing the ways and means to pay the interest on the debt and also to pay and discharge the principal thereof, be approved?

Approval of this act would authorize \$200 million in funding for Green Acres, farmland, Blue Acres, and historic preservation projects through the sale of State general obligation bonds. The

Green Acres program preserves open space, including parks, fish and wildlife habitat, flood prone or affected areas, and lands that protect water supplies. It also funds park improvements and facilities. Of the total sum authorized: (1) \$109 million will be used for Green Acres; (2) \$73 million will be used for farmland preservation purposes; (3) \$12 million will be used to fund a new “Blue Acres” program by which the State may purchase from willing sellers, for open space preservation purposes, properties in the Delaware River, Passaic River, and Raritan River basin floodways that are prone to or have incurred flood or storm damage; and (4) \$6 million will be used for historic preservation purposes.

This ballot measure passed; however, Cumberland County voted “No.”

PUBLIC QUESTION #4

CONSTITUTIONAL AMENDMENT CONCERNING THE RIGHT TO VOTE FOR CERTAIN PERSONS

Shall the amendment of Article II, Section I, paragraph 6 of the Constitution, agreed to by the Legislature, revising the current constitutional language concerning denial of the right to vote by deleting the phrase “idiot or insane person” and providing instead that a “person who has been adjudicated by a court of competent jurisdiction to lack the capacity to understand the act of voting” shall not enjoy the right of suffrage, be adopted?

Approval of this amendment concerning the denial of the right to vote would delete the phrase “idiot or insane person” and replace that phrase with “person who has been adjudicated by a court of competent jurisdiction to lack the capacity to understand the act of voting” in describing those persons who shall be denied the right to vote. The phrase “idiot or insane person” is outdated, vague, offensive to many, and may be subject to misinterpretation. This constitutional amendment acknowledges that individuals with cognitive or emotional disabilities may otherwise be capable of making decisions in the voting booth and that their right of self-determination should be respected and protected in this regard. The amendment only denies the right of suffrage to those individuals determined by a court, on a case-by-case basis, to lack the capacity to understand the act of voting.

This ballot measure passed; however, Cumberland County voted “No.”

LEGISLATION

P.L.2007, c.161 (A4326) – Prohibits newly elected public office holders from simultaneously holding more than one elective office.

EXTENUATING CIRCUMSTANCES

BALLOT MEASURES
PUBLIC QUESTION #1

VOTERS TO APPROVE STATE AUTHORITY BONDS PAYABLE FROM STATE
APPROPRIATIONS

Do you approve the proposed amendment to the State Constitution which provides that, after this amendment becomes part of the Constitution, a law enacted thereafter that authorizes State debt created through the sale of bonds by any autonomous public corporate entity, established either as an instrumentality of the State or otherwise exercising public and essential governmental functions, such as an independent State authority, which debt or liability has a pledge of an annual appropriation as the ways and means to pay the interest of such debt or liability as it falls due and pay and discharge the principal of such debt, will be subject to voter approval, unless the payment of the debt is made subject to appropriations of an independent non-State source of revenue paid by third persons for the use of the object or work bonded for, or are from a source of revenue paid by third persons for the use of the object or work bonded for, or are from a source of State revenue otherwise required to be appropriated pursuant to another provision of the Constitution?

The amendment to the State Constitution will require voter approval of new laws that allow the State to borrow money by issuing bonds through any State agency or independent authority backed by a pledge of an annual appropriation to pay the principal and interest on the bonds. New laws to allow the issuance of these State authority bonds for State government purposes will be subject to voter approval. State courts have ruled that the State constitutional requirement that the Legislature and Governor must seek voter approval for bonded debt does not apply to such borrowing. That requirement is followed only for proposed State bonds that contain a binding, non-repealable pledge to pay off the bonds directly with State taxes. Most State authority bonds can be issued without voter approval because the payment of the bonds is backed only by a promise of the Legislature and the Governor that they will enact appropriations in the future to meet the bond payments. The courts have said this is a legal means of avoiding submitting the issuance of debt for voter approval. Laws to permit such debt that are enacted after this amendment becomes part of the Constitution will have to authorize voter referenda for approval of such debts. Exceptions to voter approval for authority bonds will be permitted if the bonds are to be paid off from 1) a source of revenue dedicated by the State Constitution, which only the voters can establish, or 2) an independent non-State government source of payments for use of projects built or obtained with the borrowed money, such as highway tolls or user fees.

This ballot measure passed.

PUBLIC QUESTION #2

PROVIDES THAT METHOD OF SELECTION AND APPOINTMENT OF CERTAIN
MUNICIPAL COURT JUDGES BE SET BY STATUTE RATHER THAN BY THE
CONSTITUTION.

Shall the amendment to Article VI, Section VI, paragraph 1 of the New Jersey Constitution, agreed to by the Legislature, providing that judges of inferior courts with jurisdiction extending

to more than one municipality be appointed as provided in law rather than as provided in the Constitution which requires nomination by the Governor and appointment with the advice and consent of the Senate, be approved?

This constitutional amendment would provide that the method of selection and appointment of certain municipal court judges would be set by statute, rather than be provided for in the Constitution. These judges may include judges of joint municipal courts and judges of central municipal courts with jurisdiction extending to the territorial boundaries of a county. This constitutional amendment does not preclude the possibility that a statute would continue to provide for nomination by the Governor with the advice and consent of the Senate, but it does permit a statute to set forth another method of selection and appointment that may not involve the Governor and the Senate.

This ballot measure did not pass.

LEGISLATION

P.L.2008, c.61 – Permits use of overseas absentee ballots for all elections; authorizes transmission of ballots by electronic means.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

CHANGES

There were no changes made to the in-person electoral or voting processes that affected this election. Regarding mail-in voting, legislation was passed that now allows New Jersey voters who live overseas to receive an absentee ballot. This same legislation also permitted ballots to be sent electronically.

LEGISLATION

P.L.2009, c.17 (A3648) – Delays requirement that voting machines produce individual permanent paper record for each vote cast due to the State’s critical economic situation and lack of appropriate technology.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances directly affected the electoral or voting processes throughout this election; however, the economic recession of 2008 delayed the implementation of election related legislation from the previous year due to a lack of funding in the state of New Jersey.

CHANGES

There were no changes made to the electoral or voting processes that affected this election.

BALLOT MEASURES
PUBLIC QUESTION #1

GREEN ACRES, WATER SUPPLY AND FLOODPLAIN PROTECTION, AND FARMLAND
AND HISTORIC PRESERVATION BOND ACT OF 2009

Shall the “Green Acres, Water Supply and Floodplain Protection, and Farmland and Historic Preservation Bond Act of 2009,” which authorizes the State to issue bonds in the amount of \$400 million to provide moneys for (1) the acquisition and development of lands for recreation and

conservation purposes, including lands that protect water supplies, (2) the preservation of farmland for agricultural or horticultural use and production, (3) the acquisition, for recreation and conservation purposes, of properties that are prone to or have incurred flood or storm damage, and (4) funding historic preservation projects; and providing the ways and means to pay the interest on the debt and also to pay and discharge the principal thereof, with full public disclosure of all spending, be approved?

Approval of this act would authorize \$400 million in funding for Green Acres, water supply and floodplain protection, and farmland and historic preservation projects through the sale of State general obligation bonds. The Green Acres program acquires land that protects water supplies and preserves open space, including parks, fish and wildlife habitat, and flood prone or affected areas. It also funds park improvements and facilities. Of the total sum authorized: (1) \$218 million will be used for Green Acres; (2) \$146 million will be used for farmland preservation purposes; (3) \$24 million will be used for the “Blue Acres” program by which the State may purchase from willing sellers, for open space preservation purposes, properties that are prone to or have incurred flood or storm damage; and (4) \$12 million will be used for historic preservation purposes. All spending of the authorized bond proceeds will be subject to full public disclosure.

This ballot measure passed.

LEGISLATION

P.L.2009, c.135 (S930) – Requires adoption of constitutions and bylaws by county political party committees; requires certain information concerning committee members to be filed with county clerk; eliminates fixed terms for committee members and chairs.

EXTENUATING CIRCUMSTANCES

No extenuating circumstances affected the electoral or voting processes throughout this election.

CHANGES

There were no changes made to the electoral or voting processes that affected this election. As a result of the Vote By Mail Act passed by the New Jersey legislature earlier this year, the 2009 general election was the first election in which voters could request a mail-in ballot for current and future elections.

FEDERAL ELECTION LEGISLATION

HELP AMERICA VOTE ACT (HAVA)

The Help America Vote Act, also known as HAVA, is a federal election reform law passed in 2002 to provide funds to assist states in upgrading the equipment used to vote and set standards for voting procedures to protect and ensure the accuracy of individual's votes and the democratic process in the United States. The goals of this act include replacing outdated and faulty equipment, allowing voters an opportunity to correct their ballot before it is cast, and establishing national standards for election administration. In 2020, \$400 million in HAVA funding was granted by the CARES Act, to provide financial assistance to states to be used to mitigate the spread of COVID-19 at polling places by expanding mail-in voting and taking proper precautions to protect voters who chose to cast their ballots in person.

NATIONAL VOTER REGISTRATION ACT

The National Voter Registration Act of 1993, also known as NVRA, is a federal election law passed with the goal of increasing nationwide voter registration. Commonly referred to as the "Motor Voter" law, this act requires state governments to allow citizens to register to vote through a simplified process when they apply for or renew their driver's license. This law also requires public assistance programs to provide voter registration assistance to their clients.
